Alfalfa Market.
The alfalfa market took on a spurt during the week, due to a larger demand and the fact that many of the growers are storing their product for higher prices. The growers are asking \$11.50 per ton at the track and local dealers are getting \$13 wholesale and \$15 retail, an advance of \$1 over last week's quotation. The second cutting came on the market during the week and promises to be equally as heavy as the first cutting.

Local Prices.
Following are the quotations on alfalfa, grain and feedstuffs current on El Paso markets during the week:
Alfalfa, wholesale \$12 per ton
Alfalfa, retail \$14 per ton
Alfalfa, Texas hay \$18 per ton
Corn, wholesale \$1.80 per cwt.
Oats, wholesale \$1.90 per cwt.
Oats, retail \$2.00 per cwt.

Time is the Test

The Testimony of El Paso People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

El Paso people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

Mrs. H. F. Stacy, 2717 East Missouri street, El Paso, Texas, says: "Over two years have elapsed since I publicly testified in favor of Doan's Kidney Pills, but I have had no reason to change my high opinion of this remedy. Doan's Kidney Pills entirely relieved me of backache and other symptoms of kidney trouble from which I suffered a great deal. I gladly confirm all I said in favor of this remedy and I advise other kidney sufferers to procure a supply at Kelly & Pollard's drug store and give it a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

ITALY PRESENTS MEXICO WITH CENTENARY GIFT.

Mexico City, Mex., June 17.—Italy's centennial gift to Mexico, a copy in bronze of the famous St. George of Donatello, the original of which is in an art gallery in Florence, will be delivered with fitting ceremony during September, according to the Italian minister, count Anibal R. Masella.

The minister considers the gift, aside from any material consideration, one aptly chosen as a remembrance to this country on the occasion of its celebration of its "grito" of independence, on account of the legend which is associated with the statue of St. George. St. George was a native of Cappadocia and was a soldier under the empire of Diocletian in the third century of the Christian era. When the emperor ordered the soldiers to persecute the Christians they all complied with the exception of St. George, who, for his refusal was himself persecuted.

S.S.S. FOR SUMMER SKIN DISEASES

Smooth, healthy skins are a rarity in Summer. Most persons are annoyed with pimples, boils, rashes or eruptions, while others suffer more severely with Eczema, Acne, Tetter, Salt Rheum, or some kindred skin disease. All skin affections come from humors and acids in the circulation. The blood, as it circulates through the system, deposits these acids and humors in the sensitive membranous flesh which lies just beneath the outer skin or tissue covering the body. This acid matter causes inflammation and a discharge which breaks through the delicate cuticle, and skin diseases are the result. To cure any skin trouble the blood must be freed from all acids and humors, and for this purpose nothing equals S.S.S. This great blood purifier goes down into the circulation and completely removes every particle of impurity, enriches the blood and in this way permanently cures skin diseases. S.S.S. cures, because it purifies the blood and allows it to nourish, soothe, and soften the skin instead of irritating it with fiery acids and humors. SANITATION ON THE SOUTH SIDE IS VERY POOR

Citizens Complain and Aldermen Say Citizens Give Little Cooperation.

What has primarily been proposed as a meeting between citizens and the city council to discuss the presence of stockyards within the city limits developed into general discussion of southside sanitation when several residents of the southern part of the city met in the council chamber to present their complaints to the city fathers Thursday afternoon.

"These people are human beings and are entitled to humane treatment," said Dr. J. A. Samaneggo. "Some one, evidently the street cleaning department, has been dumping the sweepings of the streets in the very middle of the street at the corner of Ninth and South Oregon streets and the stench arising therefrom is not only deleterious to the health of the community, but is almost unbearable. We think we ought to have relief."

Felix Martinez said: "We feel that the city council is with us; we feel that the present administration and Sweeney's administration have done more for the sanitation of the city than any of their predecessors, but the people must cooperate. When they see a dead dog in the street or any matter which might cause the spread of disease, they must notify the proper authorities and then the city will undoubtedly do its part."

Mayor Robinson said: "We have the best sanitary department in the state; we pay more to keep our city clean than San Antonio does."

Alderman Clayton said: "This matter started with interested men in the pay of someone, whom I do not know, but someone peculiarly interested. We must not drive capital from the city; we must encourage its introduction. We feel that the resolutions you adopted were unjust. If the stockyards had been unsanitary, some action should have been taken before the construction was started. Then there would have been justice in compelling their abolishment, but considerable money has been spent there and it would not be fair to drive one man out and allow others that are in more densely populated districts to remain."

"It seems to me we should start a crusade for sanitary purposes and make people clean in front of their homes and places of business down there. We cannot find all the isolated places and residents who are interested in keeping the city clean should report unsanitary conditions so that we can take steps to remedy them."

Alderman McGhee said: "The city in the past has gone to record to make better sanitary conditions and erected plank floors. Yet there are adobe houses near you that have no floors in them and the residents of that section have entered no protest, have rendered no assistance to the city in detecting them."

Mr. Martinez said: "They can put cement floors in cheaply, and I will try to get enough cement to give 10 to poor people free so that they may put in floors."

McGhee continued: "Yes, cement will be a good thing; there is an appalling death rate in that section and it is due to a very great extent to dirt floors on which children sleep, thereby catching pneumonia which in many instances proves fatal. What we want is cooperation, not in sentiment, but in fact. If residents of that section will notify the proper authorities, proper action will be taken at once and the city will do all it can to improve conditions."
